

----- BRICK BREAKER GAME -----

Brick Breaker is an enjoyable game for all ages. The player is expected to shoot the black bricks falling randomly from the top of the screen, to increase the score. Shooting bricks of any other color (red/green) will lead to a decrement in life. CAUTION: Every player is allotted only 5 lives, at the end of which the Game is Over. There are also 2 buckets (red and green) at the bottom of the screen, to catch the falling bricks, but BEWARE: you can only catch the red bricks in the red basket, and similarly, the green bricks in the green basket. Catching vice versa leads to a decrement in the score. CAUTION: Catching the black brick in either of the red/green basket leads to Game Over. There are also 4 mirrors positioned at different corners of the window, to aid you in shooting the falling bricks. These mirrors reflect your lazer rays to the oncoming bricks. For a better view, you can zoom in/out, while panning left/right to explore more of the window. Another cheat in this game is the ability of the player to slow down/fasten the falling bricks, thus easing the capture of the bricks.

CONTROLS -----

A: Tilt the cannon upward
D: Tilt the cannon downward
S: Move the cannon upward
F: Move the cannon downward
N: Increase the speed of the falling bricks
M: Decrease the speed of the falling bricks
Left Shift + Left: Move the Red basket left
Left Shift + Right: Move the Red basket right
Left Alt + Left: Move the Green basket left
Left Alt + Right: Move the Green basket right
Left: Pan the screen to the left
Right: Pan the screen to the right
Up: Zoom in to the window
Down: Zoom out of the window
Space: Shoot lazer rays
